

## INDEX OF MANEUVERING BOARD EXAMPLES

		<b>OWN SHIP AT CENTER</b>	<b>GUIDE AT CENTER</b>		
		<b>EX</b>	<b>Page</b>	<b>EX</b>	<b>Page</b>
<b>TRACKING</b>					
Closest Point of Approach (CPA).....		1	244	—	—
Course and Speed of Other Ship.....		2	246	—	—
Course and Speed of Other Ship using Relative Plot as Relative Vector .....		3	248	—	—
<b>CHANGE OF STATION</b>					
With Time, Course, or Speed Specified.....		4	250	29	310
Three Ship Maneuvers.....		5	252	30	312
<b>PASSING</b>					
At Given Distance.....		6	254	31	314
Course and Speed to pass using Relative Plot as Relative Vector .....		7	256	—	—
At Maximum (Minimum) Distance .....		8	258	32	316
At a Distance Required for Several Ships to Clear.....		9	260	33	318
<b>WIND</b>					
Determination of True Wind.....		10	262	—	—
Desired Relative Wind (three methods).....		11	264	—	—
<b>PRACTICAL ASPECTS OF MANEUVERING BOARD SOLUTIONS</b>					
Advance, Transfer, Acceleration, and Deceleration .....		12	270	34	320
Maneuvering by Seaman's Eye .....		—	—	35	322
<b>COLLISION AVOIDANCE</b>					
Avoidance of Multiple Contacts .....		13	272	—	—
Avoidance of Multiple Contacts Without First Determining the True Courses and Speeds of the Contacts .....		14	276	—	—
Determining the Closest Point of Approach from the Geographical Plot .....		15	278	—	—

	<b>OWN SHIP AT CENTER</b>	<b>GUIDE AT CENTER</b>		
	<b>EX</b>	<b>Page</b>	<b>EX</b>	<b>Page</b>
<b>AXIS ROTATION</b>				
Formation Axis Rotation—Guide in Center .....	—	—	36	324
Formation Axis Rotation—Guide out of Center (Replot Method) .....	—	—	37	326
Formation Axis Rotation—Guide out of Center (Parallel Offset Method) .....	—	—	38	328
<b>LIMITING RANGE</b>				
Remain in Range for Specified Time.....	16	280	39	330
Open Range in Minimum Time .....	17	282	40	332
Close Range in Minimum Time.....	18	284	41	334
Remain in Range for Maximum Time .....	19	286	42	336
Remain Outside Range for Maximum Time.....	20	288	43	338
<b>FICTITIOUS SHIP</b>				
One Ship Alters Course and/or Speed During Maneuver.....	21	290	44	340
Both Ships Alter Course and/or Speed During Maneuver.....	22	292	45	342
<b>SCOUTING</b>				
Out and In on Present Bearing at Given Speed .....	23	294	46	344
Change Stations, Scouting Enroute .....	24	296	47	346
<b>BEARINGS ONLY</b>				
Course, Speed, and Position derived from Bearings Only .....	25	298	—	—
<b>ANTI SUBMARINE WARFARE TECHNIQUES</b>				
Limited Lines of Approach.....	26	300	48	348
Torpedo Danger Zone .....	—	—	49	350
Missle Danger Zone.....	—	—	50	352
Cone of Courses (two methods) .....	27	302	—	—
Evasive Action Against a Slow Moving Target .....	28	306	—	—
